UPHOLSTERY

Inspired by excellence

We have always been inspired by excellence. Two brothers driven by the same desire, to create pieces that elevate each decoration project.

Create with the “head”, but without ever neglecting another important part of the equation, the “heart”. And it is with this objective that we work every day.

That was the basic starting point and launched us on a path of continuous research, always guided by the values of coherence, determination and always, always, with passion and enthusiasm.

Year after year, collection after collection, we reinforce our brand identity with the evolution and continuity of the collections. In such a way, it led us to the development of a complete range of environments, fully interpreting the universe of the *Art of living* concept.
